The background of the entire page is a vibrant underwater scene. Two clownfish, with their characteristic orange bodies and white stripes, are swimming within the tentacles of a large, green sea anemone. The anemone's tentacles are numerous and have a bulbous, rounded appearance. The water in the background is a deep, dark blue, providing a stark contrast to the bright colors of the fish and the anemone.

People always talk to each other in their families. It's not surprising that animals have different conversations on a great variety of topics in their families as well.

– We have got
no money,
but he is
relaxing...
Go off
to work!

*– Oh, Honey!
I swear it
wasn't
my fault.
It was just
some fateful
combination
of circum-
stances...*

*– I'll peck him, if he does not
appreciate my new look again...*

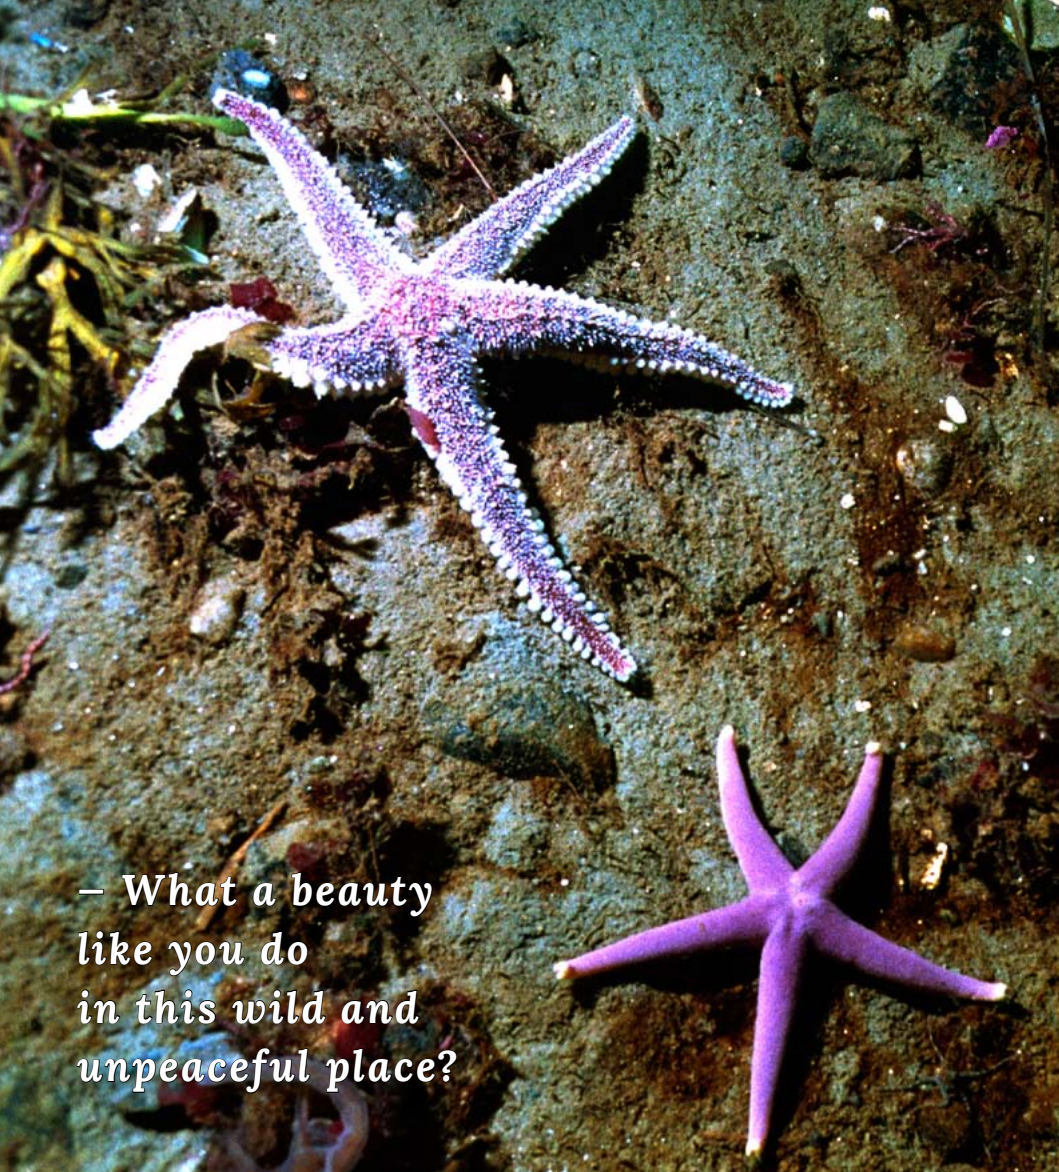

– Good heavens!
Why did I call him a primitive primate?...

– Fly with me, my dear, and you won't regret it! I'll give you a hundred seas, two hundred oceans. And even this... what it is called... the moon!

*– Oh, where don't
I have to fly just
because of him.
My wings are not
graceful enough
for him this time...*

*– What a beauty
like you do
in this wild and
unpeaceful place?*

– Oh, I don't know... Even though he says that we are the same, I better still ask mom.

– Honey, stop chatting with your girls. There is nothing to eat at home and our children are crying!

– Darling, don't be grumpy! We are going to the car exhibition tomorrow. Today, we are introducing our daughter to high fashion.

*– Honey!
If we ever
meet our
sculptor,
please, hold me
as tight as you can...*

*– Hey! If you look at that green bird
once again - I'll peck you in the forehead!*

*– Darling, do not ask me anything!
I do not remember anything in any case...*

– WOW! What they are doing!

*– How nice it is to be part
of a family even if it is only
for a little while!*

*– You know, I began writing
poems yesterday...*

*– Oh, sweetie,
why do you have to know right
now which side Africa is from us?!*

– I adore this tango in the frost...

*Performance
of a traditional
penguin song
«Sweetheart
presented
me a ring,
I'll give egg
to him
I think».*

*– Sonny! Please, don't
bite anyone in school
for at least one day!*

*– Hey good looking!
Has anyone ever told you that you have
the most gorgeous bowlegs?*

*– Your heart rate is normal.
Hmm... I have no idea why
your tail curled.*

*– We've found the gold!
The first thing I am going to do
is buy myself a cloak made from the skin
of a great white shark ...*

*– And what cretin told
us a few years ago that
children bring happiness?*

*– Do I understand the meaning of life?
Of course, sweetie! Look, the sand
is yellow. And the grass is green.
Our life is similar – we also
are born, live, die...*

*– Dear, your Pokémon
isn't in here either!
Maybe you better throw away
the phone the tourists lost?*

– They seemed to be pretty normal neighbors at first. Then they went and dyed their fur. I don't know what this world is coming to!

*Every day, long awaited peace
eventually comes to even the most
quarrelsome of families...*

...while they sleep of course.

Animal family dialogues

Igor Bondar
Andrey Bizyukin

An underwater scene with a blue-green color palette. The background is filled with various types of coral and sea anemones. In the lower right, there is a prominent, textured coral structure. Several small, light-colored fish are visible swimming in the water.
