All of us love Christmas  
and, of course,  
Christmas trees.  
Everyone knows that Christ-  
mas trees can be  
of three types – natural,

*...artificial,*

*...and  
unpre-  
dictable.*

*There are also many different  
Christmas tree “mutants”.*

*In a word, the land is clear  
for us for that matter.  
And what about underwater Christmas  
and Christmas trees?*

*To answer this question,  
let's have a look into the sea.*

*Well, they have  
Christmas  
trees of their  
own. And  
obviously they  
can be  
artificial,*

*...natural,*

A diver in a dark wetsuit and scuba gear is positioned at the top of a large, vibrant red coral tree. The coral tree has a thick, vertical trunk that branches out into numerous smaller, tree-like structures. The background is a deep blue underwater environment with some green coral and small fish visible. The text is overlaid on the right side of the image.

*...and  
sometimes  
even with  
Christmas  
decorations*

*There is only one candidate for the  
role of Santa underwater,  
and no one is going to dispute this.*

*As for Fairies,  
sometimes  
there are  
several  
questions...*

*Some of the underwater  
disputes on this issue are settled  
in a peaceful and civilized way,*

*...whereas others finish with  
small scuffles.*

*You can find an abundance of  
absolutely free garlands underwater,*

*...serpentine streamers,*

*...confetti of various colors, and...*

...stylish  
Christmas masks.

*Apart from all of that, there are many  
different beautiful Christmas toys...*

*...and decorations.*

*At this time of the year,  
local underwater theater  
presents different...*

*...Christmas  
shows,*

*...with  
famous  
actors,*

*...and just funny clowns.*

*Rest assured, you will be kindly  
offered a comfortable non-slip  
seat in the front row.*

*Moreover, at the end of the holiday you  
will be given a bag full of tasty gifts.*

*And,  
of course,  
a nice  
souvenir!*

*So, welcome to underwater Christmas!  
Just one piece of advice in conclusion...*

*At the end of the holiday, you had better to express your gratitude for the hospitality to the Fairy. She will convey your thanks to Santa herself...*

*So, that's all. Now let's think  
together where to celebrate  
the following Christmas.*

## Christmas Under Water

An underwater photograph showing a diver's hand reaching out to touch a large, textured rock formation. The water is a deep, dark blue-green color, and the lighting is somewhat dim, creating a moody atmosphere. The rock surface is uneven and appears to be part of a larger structure.

*Does anyone celebrate the  
Christmas underwater?*

*Of course!*

*More details about it  
in our funny photo-story.*
